Ambrell to Exhibit at the International Manufacturing Technology Show
Attendees can win a Chromebook, enjoy a free lunch and learn about the benefits of induction heating

Rochester, NY — Ambrell, an inTEST Company and a leading manufacturer of induction heating solutions, will exhibit at the International Manufacturing Technology Show (IMTS). The event will take place September 10-15 at McCormick Place in Chicago, IL USA and representatives will be on-hand in booth 236028 in the north hall. At the booth, attendees can learn more about the benefits of induction heating from Ambrell.

Dr. Girish Dahake, who is an induction heating expert and leads THE LAB at Ambrell, will be at the booth to discuss client heating applications. Given that football season is kicking off, free foam footballs will be available along with magnetic schedules. Additionally, attendees can enter a giveaway for a Chromebook 2-in-1 laptop/tablet. Ambrell will also be hosting a luncheon on Tuesday, September 11. Attendees can visit the Ambrell booth to learn more and get a ticket to the event.

“We’re looking forward to IMTS 2018,” said Tony Mazzullo, President of Ambrell Corporation. “We enjoy seeing our customers, meeting prospective customers and discussing how we can enhance their heating processes. Induction offers many benefits over traditional heating methods including speed, precision, repeatability and safety, and our experts are second-to-none in assessing applications and recommending the right solutions.”

IMTS is one of the largest manufacturing technology shows in the world. 115,000 attendees come from over 115 countries to visit exhibitors that cover 1.37 million square feet of floor space at McCormick Place. More information on the show, including registration instructions, can be found at www.imts.com.
